

**City of Killeen
Building and Inspections Department**

PROJECT CONSTRUCTION & DEMOLITION WASTE DISPOSAL

The City of Killeen's Solid Waste Services Division is the exclusive provider of solid waste collection and disposal services for all premises within the city. It is unlawful for any person or corporation to provide solid waste collection or disposal services to any person for compensation within the city, or to make use of the public streets for that purpose, without first obtaining an approved permit from the City Council.

What is construction and demolition waste? Construction and demolition waste includes all non-hazardous solid waste resulting from construction, remodeling, demolition, and site clearing activities. Such waste includes, but is not limited to, the following types of construction debris:

*Acoustic ceiling tiles
Asphalt
Brick, tile, & mortar
Broken concrete
Carpeting & pads*

*Dry paint
Drywall
Fiberboard
Lighting fixtures
Glass*

*Insulation
Sheet metal
Piping
Plumbing fixtures
Plywood*

*Shingles
Vegetation (bulk)
Wood
General Trash
(field crew waste)*

Approved construction and demolition waste disposal methods include use of either a City-furnished commercial container (i.e., roll-off) or the contractor's own equipment (e.g., pick-up; trailer; end dump). The hiring of a commercial company to specifically provide roll-off services (i.e., container rental with haul off) is strictly prohibited.

To obtain roll-off service, an account shall be established with the City's Utility Collections Division and a pre-paid deposit shall be made based on size of the container, the estimated number of container pickups per month, and the average weight of container contents, which will be determined by the Solid Waste Services Division. An additional deposit may be required if the actual expenses incurred over a monthly billing cycle exceed the initial deposit.

Waste materials that will not be collected from a construction or demolition project by the City's Solid Waste Services Division include, but is not limited to rock, dirt, or landscaping materials; manure; dead animals; tires, rims, or vehicle parts; gasoline-powered equipment; or any hazardous or liquid wastes.

Solid waste requirements are specifically located in Chapter 24 of the City of Killeen's Code of Ordinances. <http://www.ci.killeen.tx.us/cikilleen/Boards&Commissions/Chapter24.pdf>

TO BE COMPLETED BY CONSTRUCTION PERMIT APPLICANT	
Applicant: Owner <input type="checkbox"/> Contractor <input type="checkbox"/> <hr/> <hr/>	Applicant's Address: <hr/> <hr/>
Contractor: <hr/> <hr/>	Applicant's Phone Number: <hr/> <hr/>
Project Address: <hr/> <hr/>	Type of Project: (Check All That Apply) Residential <input type="checkbox"/> Public <input type="checkbox"/> Commercial <input type="checkbox"/> Other <input type="checkbox"/>

By my signature, I hereby affirm that I am the owner of record for the above described project, or if the applicant is an organization or business entity, that authorization has been granted to represent the owner, organization, or business in this application. I certify that the information provided is complete and accurate, and it is understood that I agree to properly manage all construction and demolition generated by this project. Additionally, my signature indicates my awareness of the City's Code requirements for managing solid waste at the time of this application submittal, and any associated fees as noted in the City's applicable fee schedule.
